PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 23, as Amended Sept. 11, 1945]

RESTRICTED PRIORITIES ASSISTANCE FOR NON-MILITARY PURPOSES

§ 944.49 *Priorities Regulation 28—(a) What this regulation does.* As a result of victory over Japan, military procurement has been drastically reduced. The supply of materials for non-military use is expected to increase rapidly so as to be generally adequate to meet all demands. There is consequently no further need for general priorities assistance for essential non-military needs, and WPB has announced in Priorities Regulation 29 the termination of AA ratings and the Controlled Materials Plan at the end of September. It is WPB's general policy not to grant further priorities assistance for non-military purposes. However, WPB is introducing

a new non-extendible CC rating for limited priorities assistance, where required in individual cases to assist reconversion or insure the continued fulfillment of essential civilian or export needs. This includes preference ratings for all purposes other than military procurement including production, construction, capital equipment, maintenance, repair, operating supplies, and export materials. This regulation explains the conditions under which WPB will assign the CC rating.

(b) Other procedures for assigning ratings replaced. Preference ratings for non-military purposes will be assigned from now on only in the way and under the conditions described in this regulation which supersedes previous procedures, such as Priorities Regulation 24, Direction 5 to Order L-41, and applications under CMP.

(c) Applications—(1) How to apply for a CC rating. Ordinarily, application for a CC rating under this regulation will be made on Form WPB-541A (revised) at your local field office. In a few cases, WPB may announce that a form other than WPB-541A (revised) may be provided. For instance, applications for textiles and related items for certain end uses should be made as explained in the orders in the M-317 series, and the M-328 series, and their schedules and directions.

(2) WPB will return applications now on hand. Since the surrender of Japan will make priorities assistance generally unnecessary, WPB will not process applications for preference ratings and allotments of controlled materials which have already been filed under old procedures, but will return them without action, except those requiring immediate emergency assistance. If you still need a preference rating, and if you can meet the conditions described in this regulation, you may file again.

(d) When the WPB may assign a CC rating. It is the general policy of the WPB not to grant further priorities assistance for non-military purposes. However, the WPB may in limited cases grant CC preference ratings for specific items and quantities of materials or equipment under the following conditions:

(1) The applicant is not able, without preference rating assistance, to get the item in the minimum quantity and on the latest date practicable, and the item is required for at least one of the following reasons:

(i) It is a "bottleneck item", a great majority of materials being obtainable without priorities assistance, and it is needed to maintain or begin operations at the minimum economic rate or to complete construction required for reconversion or other essential needs, or

(ii) The item is needed to prevent a delay in the completion on time of military production or construction, or

(iii) The item is needed to sustain or increase production of an item or a service which is in such tight supply that it is a serious threat to the economy, or

(iv) The item is needed to eliminate serious hazard to life, health, or safety of a large number of people, or to maintain essential public or other community services, or

(v) The item is needed in an emergency to remedy an actual or imminent breakdown or to replace an item which has been destroyed by flood, fire, tornado, or other Act of God, or

(vi) The item is needed for construction on a home to be occupied by a World War II veteran; and the application is made by the veteran. (In such cases, priorities assistance will be granted without a showing that the veteran is unable to get other suitable accommodations in accordance with the policy established by Congress in the Independent Offices Appropriation Act of 1946. Priorities assistance will be given to veterans who need it for other purposes if they meet the other conditions described in this paragraph (d).) or

NOTE: Subdivision (vii), formerly (vi), redesignated Sept. 11, 1945.

(vii) Where for other reasons, failure to obtain delivery of the item would result in unreasonable and exceptional hardship.

(2) Special consideration will be given to the needs of small business.

(3) WPB will not grant a CC rating in cases where it would preempt an undue proportion of the limited amounts available. If a material is in such short supply that it is generally hard to obtain, WPB may provide other procedures rather than a rating under this regulation.

(4) In addition to the above, CC ratings may be granted for textile and related items for certain uses as provided in orders in the M-317 series and the M-328 series, and their schedules and directions.

(f) CC ratings for export—(1) In general. In the case of materials for export (other than those textiles and related items referred to in paragraph (f) (2) below), applications from Canada will be handled on the same basis as United States applications. In the case of other exports, WPB will assign a CC rating to materials where it is demonstrated that a rating is necessary for procurement of materials in this country to prevent serious injury to the minimum essential civilian economies of friendly foreign nations or to obtain vitally needed supplies from foreign sources, or for other reasons of high public policy. Applications for such rating should be made to the Foreign Economic Administration on the forms prescribed by that agency.

(2) Certain textiles and related items. For exports, including shipments to Canada, of cotton broad woven fabrics for which set-asides are provided in the dis-

tribution schedules of Order M-317A, seine twine, fish netting, and cotton yarn, CC ratings may be granted, on specific applications only, to the extent of the export programs fixed by the WPB. Applications for such rating should be made to the Foreign Economic Administration, on the forms prescribed by that agency; except that for shipments to Canada applications should be filed with the Cotton Administrator of the Wartime Prices and Trade Board and will be acted on by the WPB.

Issued this 11th day of September 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 29, as Amended Sept. 11, 1945]

REVISED PRIORITIES SYSTEM

§ 944.50 Priorities Regulation 29—(a) What this regulation does: This regulation describes the accelerated transition to a revised and simplified priorities system. The system previously announced in Priorities Regulation 29 to take effect on January 1, 1946 was designed to insure the continuing production of military and other essential requirements for the Japanese war. Victory over Japan has reduced military requirements to such an extent that the previously announced system is no longer appropriate. There are four principal features of the modified system as explained in this regulation: (1) the new system will become fully effective on October 1 instead of January 1 as originally announced; (2) WPB is introducing a new nonextendible "CC" preference rating which will be used in individual cases to assist reconversion and insure the continued fulfillment of essential civilian and export needs; (3) the MM rating originally introduced for military use will be continued for the time being to support the requirements of the occupation forces and other continuing military needs; (4) Priorities Regulation 30, which provided for direct assignment of MM ratings by WPB under certain circumstances, has been revoked. There will also be changes in other orders and regulations of the WPB. It may not be practicable to make all such changes before this regulation is published and if there is any inconsistency between this regulation and any other regulation or order of the WPB, this one controls unless the other expressly states the contrary.

(b) General description of new rating system. The present system of AA ratings (AA-1, AA-2, AA-2X, AA-3, AA-4 and AA-5) and the Controlled Materials Plan will be discontinued on September 30, 1945 and will be replaced by the following:

(1) The AAA rating will still be assigned in emergencies as under existing procedures.

(2) The new MM rating will be assigned by the Army and Navy and other military agencies. WPB Directive 41 and other WPB Directives will explain the rules governing the assignment of ratings by those agencies. The WPB will not generally assign the MM rating directly to manufacturers, and Priorities Regulation 30 which was issued for that purpose has been revoked. In a few instances, the WPB may assign MM ratings directly for specific items and quantities of materials or equipment, but this will be done only where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating unless it is specifically announced by a direction to this regulation or other formal action of the WPB that WPB will assign it.

(3) The new CC rating will be assigned as described in Priorities Regulation 28. That regulation describes the limited conditions under which WPB may assign the CC rating for any purpose, except actual military procurement. The new CC rating is not extendible except as explained in paragraph (g) (2) at the end of this regulation, and in Priorities Regulation 3.

(4) The rules for the acceptance and filling of rated orders and the use of ratings are the same for the MM and CC ratings as for ratings in the AA series, except as otherwise stated in this regulation or other orders and regulations of the WPB. During the period from July 1 through September 30, the MM rating is equivalent to AA-1, and the CC rating is equivalent to AA-2.

(5) [Deleted Sept. 11, 1945.]

(c) *Expiration of AA ratings.* (1) The AA rating system remains effective as to deliveries between now and the end of September, 1945.

(2) Effective immediately, all preference ratings in the AA series are cancelled on purchase orders calling for delivery after September 30. Suppliers must disregard any AA ratings on purchase orders for delivery after September 30 which they have received or which they may receive, and must treat such orders as unrated. However, in the case of textile and related items covered by Schedule A of Order M-328, AA ratings on purchase orders for delivery after the end of September remain valid through September 30, 1945. After that time, AA ratings for textile and related items shall expire, and orders bearing AA ratings must be treated as unrated unless a specific new rating of AAA, MM or CC is received.

(3) WPB will discontinue immediately the assignment of AA ratings for delivery after September 30.

(4) Orders bearing AA ratings identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated, as explained in Direction 1 to this regulation. Other military orders with AA ratings which call for delivery after September 30 must be treated as unrated orders in the same way as all other orders bearing ratings in the AA series. Some orders may be specifically re-rated MM or CC, but a

supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(d) *End of Controlled Materials Plan.*

(1) On October 1, the Controlled Materials Plan and all regulations and directions issued under it (except inventory restrictions) will automatically expire, including directions or directives issued before August 21, 1945, to individually named controlled materials producers, warehouses, or distributors.

(2) Until the end of September, deliveries of controlled materials will continue to be regulated by the Controlled Materials Plan alone and not by ratings. However, an order for controlled materials rated AAA, MM, or CC is to be treated as an authorized controlled material order.

(3) Effective immediately, all fourth quarter and subsequent allotments of controlled materials are cancelled. Controlled material producers and warehouses must treat every authorized controlled material order for fourth or subsequent quarter delivery as an unrated order, unless it is specifically re-rated AAA, MM or CC.

(4) Authorized controlled material orders identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated as explained in Direction 1 to this regulation. Other authorized controlled material orders which call for delivery after September 30, must be treated as unrated orders in the same way as all other authorized controlled material orders. Some orders may be specifically re-rated MM or CC, but a supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(e) *Maintenance, repair and operating supplies.* (1) CMP Regulations 5 and 5A and the P and U orders assigning priorities assistance for maintenance, repair and operating supplies will remain in effect through September 30 at which time they will expire.

(2) Under the new rating system, after September 30, ratings will not be given for maintenance, repair and operating supplies on a blanket basis similar to CMP Regulations 5 and 5A and the present P and U orders.

(f) *Construction, facilities and equipment.* (1) CC ratings for construction material, facilities and equipment will be assigned by WPB under the conditions described in Priorities Regulation 28, instead of Priorities Regulation 24, which has been revoked, and Direction 5 to Order L-41.

(2) Military agencies will assign the MM rating for certain construction, facilities and equipment, required for military prime and subcontracts as described in the appropriate WPB Directives. Application for these ratings should be made on Form WPB-542 to the appropriate military agency. In a few cases, the WPB may assign the MM rating for construction where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating for construction unless WPB has specifically announced that it will assign such rating.

(g) *Extension of customers' ratings—*

(1) *MM ratings.* The rules of Priorities Regulation 3 as to extension of customers' ratings apply to MM ratings in the same way as to AA ratings. Manufacturers of Class B products and unclassified products who receive their production material ratings from the WPB and are forbidden by CMP Regulation 3 and Priorities Regulation 11B to extend their customers' ratings, may nevertheless extend customers' MM ratings for delivery after September 30 as explained in Priorities Regulation 3.

(2) *CC ratings.* The CC rating cannot be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item. A distributor, warehouse, retailer or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

A textile converter receiving a CC rating from his customer for finished fabric may extend the rating to get the gray fabric (including the portion of it which would normally be consumed or converted into scrap or by-product in the course of processing) which he will deliver in finished state on that order, or to replace in inventory fabric used to fill the order. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the CC rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the CC rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace inventory must be substantially the same (except for the finishing) as the material which the person delivered, except for minor variations in construction.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule C, as Amended Sept. 12, 1945]

SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS

§ 3290.120c *Schedule C to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian apparel made of cotton fabric to get an AA-3 preference rating for fabric to make the items listed in this schedule.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(4) "Base period manufacturer" and "base period" mean the same as they do in M-328B except that a person who did not manufacture an item listed in this schedule during the base period at or below the maximum price set forth in the schedule shall not be a base period manufacturer.

(c) *Requirements for obtaining priorities assistance.* (1) Three copies of form WPB-3732 must be filed in making application for priorities assistance under this schedule in accordance with the rules stated in paragraph (c) of Order M-328B, except that for the fourth quarter of 1945 applications shall be postmarked not later than September 5, 1945.

(2) A person who has received a rated quota under Order M-388A pursuant to an application on Form WPB-4200 who files Form WPB-3732 (revised) for the third calendar quarter of 1945 by July 21, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of cotton fabrics for delivery in that quarter for incorporation into the cotton items for which application is made. He may do so only for an item he made in the base period and only for 15% of his rated quota under M-388A with respect to any item. Cotton fabrics purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is ultimately granted on form WPB-3732 (revised). If the applicant does not ultimately receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War

Production Board, immediately cancel orders for any undelivered quantities which are in excess of his grant.

(3) A manufacturer receiving an allocation for an item under this schedule for a quarter must subtract from his rated quota for that item under Order M-388A for that quarter, the total yardage of fabrics for which priorities assistance is granted under this schedule to determine the quantity of fabrics which he may purchase with an AA-4 rating under his M-388A rated quota. If the quantity of fabrics for which an AA-3 rating is authorized for an item under this schedule is in excess of his AA-4 rated quota in M-388A, the manufacturer may not use an AA-4 rating under M-388A for that item.

(4) A manufacturer who files Form WPB-3732 for the fourth quarter of 1945 by September 5, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of cotton fabric for delivery in that quarter for incorporation into the items for which application is made. He may do so only for an item he made in the base period at or below the price shown in the preference rating schedule or for which he received an allocation under this schedule, for the third quarter of 1945, and only for one-third of the yardage of fabric consumed in the production of that item during the base period or 50% of the yardage allocated to him by the War Production Board for the third quarter, whichever is smaller. Fabric purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted pursuant to his application on Form WPB-3732. If the applicant does not receive a grant of the entire quantity thus rated he shall upon notification of his grant by the War Production Board immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

Manufacturers who did not produce in the base period the items applied for on Form WPB-3732 at or below the price shown in the preference rating schedule, or who do not receive an allocation for them under this schedule for the third quarter of 1945, may not use any ratings under this schedule for the fourth quarter of 1945, until the War Production Board has assigned them a quota.

(5) *Provisions in case of governmental cut-backs.* At any time during any calendar quarter a manufacturer who has received cancellations or cut-backs on military contracts or orders placed by any agency of the U. S. Government, or who during the quarter has production facilities made available, may apply to the War Production Board on Form WPB-3732 for priorities assistance to manufacture items listed in this schedule. Such applications will be approved to the extent of available materials and the need for additional production of the items applied for.

(6) When a fabric is removed from the fabric column for any item, each manufacturer must immediately cancel or unrate any unfilled orders for that fabric which he placed with ratings assigned under this Schedule for that item.

(7) Whenever a fabric is added to a Preference Rating Schedule for any item, an applicant who has filed WPB-3732 for that item need not file a new application, but may send a letter to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., requesting authorization to use the new fabric in place of or in addition to fabrics previously applied for. Where the change is only in the sley of the fabric, the authorization to be issued by the War Production Board will give effect to such change and no letter is required. The letter must specify the item number, the description of the item, the complete description of all of the authorized fabrics which the applicant wishes to use during the quarter and the number of linear yards of each fabric for which priorities assistance is requested. Such letters should be mailed within five days of the issuance date of an amendment incorporating additional fabrics for an item.

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) If applications are received for fabric in excess of the amount of fabric which can be allocated to any item, allocations will be assigned in proportion to the manufacturer's base period production of that item. However, an equitable portion of available fabrics will be allocated to applicants who did not produce the items in the base period. If the quantity of a specific construction of fabric is requested in excess of the quantity of that construction which is available for allocation under this schedule the War Production Board may substitute other fabrics for the fabrics applied for taking into account the price of such fabrics with relationship to the price at which the manufacturers will sell the finished item.

(4) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of M-328B.

(5) The quantity of cotton fabric which may be applied for by a base period manufacturer, for making an item in each price specified in his application, may not be greater than 100% of the linear yardage used by him in the base period for making that item at such specified price; except that a manufacturer may apply for a larger quantity of an item at a lower price if he decreases the quantity of an item applied for at a higher price by the same number of units.

(6) Additional priorities assistance may be given for the procurement of cotton narrow woven selvedge edge tape needed for incorporation into the number of units for which priorities assistance is granted. Requests for this additional priorities assistance shall be made on Form WPB-3732 separately for each item for which application is made.

(7) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where normal industry practice appears, the manufacturer should state his proposed sizes in the remarks section of Form WPB-3732

(reviced). If his application is granted, he must comply with these size assortments.

PART 4600—RUBBER, SYNTHETIC RUBBER
AND PRODUCTS THEREOF[Rubber Order R-1, Amdt. 7 to Appendix II,
as Amended May 30, 1945]

Appendix II, Manufacturing Regulations, as amended May 30, 1945, is hereby further amended in the following particulars:

1. By deleting List 1, *Regulations for the Tire and Tube Production Pattern.*
2. By changing List 8, *Regulations for the Manufacture of Tires and Tire Casings (Except Airplane and Bicycle Tires)*, to read as follows:

LIST 8—REGULATIONS FOR THE MANUFACTURE OF
TIRES AND TIRE CASINGS (EXCEPT AIRPLANE
AND BICYCLE TIRES)

(a) *General provisions.* (1) The natural rubber content of any tire or tire casing governed by this List 8 shall not include processing losses or natural rubber used in curing bags.

(2) No natural rubber latex shall be consumed in the cord treatment. Dispersions of natural rubber may be used for cord treatment and the amount of natural rubber solids so consumed shall be included in the maximum content natural rubber permitted for each tire.

(3) The use of rayon in the manufacture of tires and tire casings governed by this List 8 shall conform to the regulations set forth in List 15, Appendix II.

(4) Fewer plies of 2200 denier rayon cord may be used than specified for standard cord provided "ply rating" as defined by current Tire and Rim Association standards is not reduced. The same permitted "maximum content natural rubber" shall remain in effect.

(5) Only 100 level tires as commonly known to the tire industry may be manufactured in any size, ply and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tire is designed. All types of pneumatic tires shall be manufactured with black sidewalls only.

(6) Where "Mud-snow" type tread is designated in this List 8, tires with either directional or non-directional (ND) tread designs may be manufactured.

(7) Single marked high pressure type tires or single marked balloon type tires may be substituted for dual marked type tires.

(b) *Manufacturing regulations.* (1) Pneumatic tires of any size, ply and tread type may be manufactured provided that they conform to the regulations for S-3 synthetic construction tires in List 6, Appendix II.

(2) Solid tires (except bogie, idler and support rollers), including cured-on solid tires, 4" x 1½" up, and lug base industrial (unbonded) type may be manufactured: Provided, that:

Natural rubber is consumed only as follows:

Hard rubber base type. Natural rubber shall be consumed only in cements and/or hard base and shall not exceed, by weight, ten percent of the total RHC.

Tie-gum base (soft base) type. Natural rubber shall be consumed only in cement and/or tie gum and shall not exceed, by weight, eight percent of the total RHC. Individual sizes may exceed the eight percent maximum, *Provided*, That, the average natural rubber content of all sizes does not exceed the eight percent maximum.

Lug base industrial (unbonded) type. Natural rubber shall be consumed only in ce-

ments and/or splicing gum and shall not exceed, by weight, .75 percent of the total RHC. Individual sizes may exceed the .75 percent maximum, *Provided*, That, the average natural rubber content of all sizes does not exceed the .75 percent maximum.

(3) The manufacture of tires and tire

casings consuming more natural rubber than permitted by paragraph (b) (1) and (b) (2) of this List 8 shall be limited to the sizes, plies and tread types listed in this paragraph (b) (3), subject to the maximum natural rubber contents or construction designated therefor.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-690, Revocation]

BORIS LIPKIN

Boris Lipkin, 2300 South Adams Street, Peoria, Illinois, was charged with beginning unauthorized construction on a farm of 487 acres near Mackinaw, Illinois, in the vicinity of Peoria, Illinois, which exceeded the limit of \$1,000.00 permitted by Conservation Order L-41. This construction was as follows: A new hen house, a new garage attached to new hen house, a new hog house, a new sheep shed on the rear of the barn, and new and extensive cement driveways. Suspension Order No. S-690 was issued against Boris Lipkin on January 12, 1945. In view of the fact that Conservation Order L-41 as amended on September 7, 1945, places no limit on farm construction (exclusive of farm houses), the Chief Compliance Commissioner has directed that the suspension order be revoked.

In view of the foregoing:

It is hereby ordered, That: Suspension Order No. S-690 be revoked, effective September 12, 1945.

Issued this 12th day of September 1945.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 16, as Amended Sept. 13, 1945]

REPLACEMENT OF DEFECTIVE CONTROLLED MATERIAL

The following direction is issued pursuant to CMP Regulation No. 1 (§ 3175.1) to all controlled materials producers providing for the replacement of material rejected by a customer because of nonconformity with specifications.

STEEL

(1) When steel is rejected by a customer for non-conformity with specifications, or other defect, the producer must schedule and make replacement in preference to all other orders for similar material, without requiring an additional allotment, in the absence of specific written instructions by the War Production Board or the customer to the contrary. The provisions of paragraphs (t) (4) and (t) (5) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) [Deleted Sept. 13, 1945.]

(3) [Deleted Sept. 13, 1945.]

(4) Deleted Feb. 1, 1944. (The deletion of this paragraph means that beginning February 1, 1944 the rules stated above apply equally to replacement orders for stainless steel.)

COPPER

(1) Copper produced to fill authorized Controlled Material orders and rejected by a customer for nonconformity with specifications shall be replaced in preference to all other orders in the absence of specific instructions by the Copper Division of the War Production Board to the contrary. The provisions of subparagraphs (4) and (5) of paragraph (t) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) Such replacements shall be made without requiring the extension of an additional allotment, even though delivery of the material is made in a subsequent quarter. If, however, some of the material cannot be replaced in time to meet a War Production Board production schedule or the delivery requirements of the producer's customer, the producer shall immediately notify the Copper Division in writing, giving a full explanation. The customer may receive the replacement copper without making further charge to an allotment, even if the copper is delivered in a subsequent quarter.

(3) [Deleted Sept. 13, 1945.]

ALUMINUM

(1) Replacement orders for rejected aluminum shall be filled in preference to all other orders not in actual production on the day of the receipt of the replacement order. The provisions of subparagraphs (4) and (5) of paragraph (t) of CMP Regulation No. 1 shall not restrict delivery of replacement orders.

(2) Replacement orders for rejected aluminum are deemed to be covered by the same authorized controlled material order or other authorized order against which the rejected shipment was made. Accordingly, the producer shall not require an additional allotment or other authorization from his customer to secure replacement material if the original shipment was made in accordance with applicable regulations and directives even though delivery of the material is made in a subsequent quarter. The customer may receive the replacement aluminum without

making further charge to an allotment, even if delivered in a subsequent quarter.
(3) [Deleted Sept. 13, 1945.]

GENERAL PROVISIONS

(1) Rejected steel, copper or aluminum may be used or disposed of without restriction subject to inventory restrictions and any other regulations of WPB.

Issued this 13th day of September 1945.

(If warehouse is located in Zone I use price provided by paragraph (a) for f. o. b. shipping point sales less the amounts specified above in this sub-paragraph (1); if warehouse is located in Zone II use price provided by paragraph (a) for delivered sales less the same amounts as specified above.)

6. Section 2 (c) is amended to read as follows:

(c) A grower's, country dealer's, packer's and sheller's maximum price for sales to consumers shall be his price established by paragraph (a) for a corresponding sale of the same item, less 1 cent per pound on sales of in-shell walnuts and filberts, 1 cent per pound on sales of shelled almonds, and ½ cent per pound on sales of in-shell almonds, multiplied by 1.35.

7. Section 3 (a) is amended by adding the following: "If the seller cannot determine his maximum price by either of the methods set out above in this section, his maximum price shall be the 'highest price charged' during the period October 25 to October 30, 1943, inclusive, for the sale of the item to the same class of purchaser by his most closely competitive seller of the same class."

8. Section 4 (a) (1) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

9. Section 4 (a) (2) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

11. Section 4 (c) (1) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

12. Section 4 (c) (2) is amended by adding the following: "If he has not received a delivery of the item before September 11, 1945, his maximum price for a sale of the item shall be the maximum price established under this regulation for the sale of the same item to the same class of purchaser by his most closely competitive seller of the same class."

13. The table of prices set forth in section 4a is amended by deleting the words "except brixnuts" following the word "Large."

14. Section 5 is hereby revoked.

15. Section 8 (a) (2) is amended to read as follows:

(2) "Country dealer" means a person who buys in the producing area the kind of edible tree nuts being priced in raw unshelled condition (either graded or not) for resale in substantially the same form. It includes, for example, persons furnishing services as handlers known in the trade as "accumulators" and "itinerant truckers."

16. Section 8 (a) (8) is amended to read as follows:

(8) "Wagon wholesaler" means a person who purchases the kind of edible tree nuts being priced and sells them, by periodically running definitely established routes, to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances under the supervision of driver-salesmen who make delivery at the time and place of sale.

17. Section 10a is added to read as follows:

SEC. 10a. *Individual authorization of maximum prices.* If a seller cannot otherwise determine his maximum price for an item of edible tree nuts under the pricing methods given elsewhere in this regulation, before delivering the item to any purchaser, he shall apply to the Office of Price Administration, Washington, D. C., for a maximum price. His application shall set forth:

(a) A description in detail of the item for which a maximum price is sought, including its grade and brand name (if any) to be used, the number of packages in each shipping case, and a statement of the facts which make it different from the most similar item for which he has determined a maximum price, identifying the similar item and stating its maximum price;

(b) 1 An itemized current cost breakdown of the item to be priced, showing separately, according to his own system of accounts or regularly prepared operating statements, all major component cost factors (e. g., direct costs, such as ingredients, packaging materials and direct labor; indirect costs, such as indi-

rect labor, additional factory overhead and selling, advertising and administrative cost, together with an explanation showing the method of allocation of the indirect cost factors; and average outbound cost transportation (if sold on a delivered basis)) indicating whether each cost item is an actual or an estimated cost; and

2 An identical current cost breakdown of the most closely similar or comparable food product (if any) which contributes substantially to his total volume of business;

(c) The proposed maximum price for the item, including a statement showing any discounts or allowances which should be made applicable to the proposed price, and (for comparison) the maximum prices in sales to each class of customer sold, for the second product included in paragraph (b) 2 of this section, including a list of his customary discounts, transportation and other allowances and price differentials;

(d) The method of distribution to be employed by the seller in marketing the item (i. e., whether it is to be sold to wholesalers, wagon wholesalers, retailers, consumers or other classes of purchasers);

(e) In furnishing the information required in this section, concerning maximum prices, both established and desired, the seller shall include the f. o. b. point of the price; if the sale is made on a delivered basis, he shall likewise include the average outbound transportation.

Upon receipt of the application, the Price Administrator will authorize a maximum price, or a method of determining a maximum price, for the applicant or for the sellers of the item generally, including purchasers for resale or for a class of such resellers. The maximum price authorized will be one which bears a proper relationship to those for comparable commodities and sellers. Separate maximum prices will be authorized for sales to government procurement agencies.

After filing the application, the seller may deliver the item, but he may not receive payment for it until a maximum price is authorized.

Where any cost factor set forth in the application is an estimated amount, the processor shall file with the Office of Price Administration, Washington, D. C., not earlier than three months nor later than six months after a maximum price has been authorized, a statement showing the actual cost factor in his production of the item since the maximum price was authorized.

If the seller fails to apply for a maximum price under this section, when required to do so, the Price Administrator may authorize a maximum price for his sales of the item bearing a proper relationship to those for comparable commodities and sellers. This will not relieve the seller of his obligation to comply with this section or with any other provision of this regulation, nor will it relieve him of any penalty for failure to do so.

Any maximum price established under this section shall be subject to revision

at any time by the Office of Price Administration.

"Most closely similar or comparable commodity" means a food product, covered by this regulation (1) whose current "direct cost" is closest to but not less than two-thirds of the "direct cost" of the item being priced; and (2) for which the methods employed in its sale and merchandising are similar to those which will be used in the sale and merchandising of the item being priced. As between two or more such commodities having the same "direct cost," the one whose maximum price represents the smallest percentage of its "direct cost" shall be used.

This amendment shall become effective September 11, 1945.

Issued this 11th day of September 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

CHESTER BOWLES,
Administrator.

Approved: September 10, 1945.

J. B. HUTSON,
Acting Secretary of Agriculture.

PART 1358—TOBACCO

[MPR 260¹, Amdt. 14]

CIGARS, CIGAR CUTTINGS AND CLIPPINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation 260 is amended in the following respects:

1. Section 1358.102 (a) (8) is amended to read as follows:

(8) A manufacturer who has received an adjustment in his average retail price ceiling pursuant to paragraph (c) (3) below, may apply for an adjustment of the maximum list and maximum retail prices established by this regulation for any one or more brands and sizes of domestic cigars manufactured by him which he sold in March, 1942. Applications shall be made by letter to the Office of Price Administration, Tobacco Section, Washington, D. C., signed by the manufacturer or his authorized agent, setting forth:

(i) The manufacturer's name and address, and the name and title of the person signing the application.

(ii) The brands and sizes of domestic cigars which are the subject of the application, three samples of each shall be enclosed.

(iii) The manufacturer's March, 1942, list price and March, 1942, stated retail price for these cigars.

¹ 7 F.R. 8997, 10255, 10475, 11113, 8 F.R. 1974, 2208, 4476; 9 F.R. 3037, 3710, 7060, 10583, 13288, 13592, 14067; 10 F.R. 7852.

(iv) The length and ring gauge of each such domestic cigar, and the number of pounds and kind of weight of each type number and grade of filler, binder and wrapper leaf tobacco used in making that cigar.

(v) A list showing each brand and size of domestic cigar manufactured by the applicant which he sold in March, 1942, with his present maximum list and stated retail prices for each such cigar (determined as provided in this paragraph (a)).

(vi) A list showing each brand and size of new domestic cigar manufactured by the applicant for which maximum list and retail prices have been established by order of the Price Administrator pursuant to paragraph (b) below, the date of each such order and the prices established for each such cigar.

The Price Administrator may by order grant or deny, in whole or in part, the adjustment requested. No adjustment shall be granted under this subparagraph (8) if any cigar listed in the application under items (v) and (vi) above has a maximum retail price which exceeds the average retail price ceiling established for the applicant by order of the Price Administrator pursuant to paragraph (c) (3) below. Any adjustment granted under this subparagraph (8) shall be limited to an amount (or amounts) which will bring the maximum list and retail prices in line with industry average prices for domestic cigars of similar size, shape and tobacco content.

2. Section 1358.102 (c) is amended to read as follows:

(c) *Manufacturers' average retail price ceilings*—(1) *Requirement that average retail price ceiling be maintained.* A manufacturer of domestic cigars may sell any quantity of a particular brand and size of domestic cigars, the maximum list and maximum retail prices of which are properly established under this regulation; *Provided*, That, except as otherwise provided in subparagraph (6) below, the weighted average retail price of all domestic cigars manufactured by him which he sells tax paid during the calendar quarter beginning January 1, 1945, or during any calendar quarter thereafter, shall not exceed his average retail price ceiling for that quarter determined in accordance with subparagraph (2), (3) or (5) or paragraph (d) below.

NOTE: For the purpose of this subparagraph (1) and subparagraphs (4) and (6) below, if a manufacturer maintains one or more distribution outlets separate and distinct from his manufacturing premises and his storage facilities, all transfers tax-paid to such distribution outlets from such manufacturing premises or storage facilities during any given quarter shall be included in his sales for that period; however, sales made from such distribution outlets during that period shall be excluded from his sales for that period.

(2) *Determination of average retail price ceilings.* Each manufacturer of domestic cigars shall determine his average retail price ceiling in accordance

with any applicable provision set forth in subdivisions (i) (ii) (iii) or (iv) below.²

(i) *Manufacturers who sold domestic cigars in the first half of 1943 which they sold in March 1942.* If he manufactured and sold domestic cigars during March 1942, the manufacturer shall establish his average retail price ceiling by completing OPA Form 635-2077, shown in Appendix E (or copies of that form made by the manufacturer), and filing the completed form, in duplicate, with the Office of Price Administration, Tobacco Section, Washington, D. C. Printed copies of that form may be obtained, on request, from the National Office, or from any Regional or District Office of the Office of Price Administration. If the manufacturer had alternative March 1942 stated retail prices for a brand and size of domestic cigars sold by him in that month, the lowest of the alternative prices shall be used. If the manufacturer had no March 1942 stated retail price for a brand and size of domestic cigars sold by him in that month, he shall use as his March 1942 stated retail price for those cigars the amount ascertained by multiplying his March 1942 list price per thousand for them by the appropriate factor indicated below and dividing the resulting total by 1,000.

March 1942 list price:	Multiplying factor
\$74 per thousand or less.....	1.25
More than \$74, but less than \$114 per thousand.....	1.33
\$114 per thousand or more.....	1.30

In determining an average retail price ceiling under this subdivision, the manufacturer shall disregard brands and sizes of domestic cigars manufactured and sold by him in the first half of the calendar year 1943, but not manufactured and sold by him in March 1942.

(ii) *Manufacturers who sold new domestic cigars in the first half of 1943 and who are not required to use (iii) below.* Unless required to use subdivision (iii) below, any manufacturer of domestic cigars who was in business for 30 or more consecutive days during the period from January 1 through June 30, 1943, and who sold during that period one or more sizes and brands of new domestic cigars manufactured by him, may establish his average retail price ceiling, or at his option amend his average retail price ceiling previously established prior to September 24, 1945, under this regulation, by filing in duplicate, on or before December 1, 1945, with the Office of Price Administration, Washington, D. C., 4 copies of OPA Form 635-2077 (or 4 copies of that form):³ *Provided, however*, That

² Orders issued prior to September 24, 1945 under § 1358.102 (c) (3) that establish lower ceilings than are determined under this section (c) (2) are revoked; those orders which establish higher ceilings are continued in effect.

³ *Instructions for completing these forms.* (a) On one sheet of OPA Form 635-2077, he shall write across the first line under the column heading, "Sheet I. March 1942 brands and sizes." He shall then complete Sheet I as provided in subdivision (i) above, following the instructions on the form, ex-

a manufacturer may not establish or amend an average retail price ceiling pursuant to this subdivision (ii) if he sold during the period from January 1 through June 30, 1943, any new domestic cigar manufactured by him which he also sold at any time after January 1, 1945, and for which cigar no maximum retail price ever has been established by order of the Price Administrator pursuant to paragraph (b) of this § 1358.102, or if

cept that he shall not complete the weighted average retail price calculation at the bottom of the form.

(b) On a second sheet of that form, he shall write across the first line under the column heading, "Sheet II. New domestic cigars sold after January 1, 1945." Under that heading, he shall enter in columns 1 and 2 each brand size of new domestic cigar manufactured by him which he sold both during the period from January 1 through June 30, 1943, and at any time since January 1, 1945; For each cigar listed in columns 1 and 2, he shall enter in column 3, the date and number of the order issued by the Price Administrator pursuant to paragraph (b) of this section, establishing a maximum retail price for that cigar, and in column 4, the maximum retail price established for that cigar by that order. Columns 5 and 6 shall be completed according to the instructions on the form. (Ignore instructions 1, 2 and 3 on this sheet). He shall not complete the weighted average price calculation at the bottom of the form.

(c) On a third sheet of that form, he shall write across the first line under the column heading, "Sheet III. New domestic cigars not sold after January 1, 1945." Under that heading, he shall enter in columns 1 and 2 each brand and size of new domestic cigar manufactured by him which he sold during the period from January 1 through June 30, 1943, which he has not sold at any time since January 1, 1945. For each cigar listed in columns 1 and 2, he shall enter in column 3 the date on which he established the maximum retail price of that cigar by filing the report required by former § 1358.102 (c) of this regulation, and in column 4 the maximum retail price so established for that cigar (or, if such maximum retail price was modified by order of the Price Administrator issued pursuant to former § 1358.102 (e), the maximum retail price established by such order.) Columns 5 and 6 shall be completed according to the instruction on the form (Ignore instructions 1, 2 and 3 on this sheet). He shall not complete the weighted average retail price calculation on the bottom of the form.

(d) On a fourth sheet of that form, he shall write across the first line under the column heading, "Sub-totals carried forward from Sheets I, II, and III." On the next line, he shall write across columns 1, 2, 3 and 4, "Sub-total from Sheet I", and enter in columns 5 and 6 the totals shown on Sheet I for those columns. On the third line, he shall write "Sub-total from Sheet II" and enter in columns 5 and 6 the totals for those columns shown on Sheet II. On the fourth line, he shall write "Sub-total from Sheet III" and enter in columns 5 and 6 the totals for those columns shown on Sheet III. (If he sold no cigars in the category covered by any one of Sheets I, II or III, that sheet must be completed, and the word "none" written in under the sub-heading. In that case, the totals carried from that sheet to Sheet IV will be zero.) He shall then total columns 5 and 6 on Sheet IV, and complete the weighted average price ceiling computation at the bottom of that Sheet, according to the instruction on the form.

he sold during that period any new domestic cigar manufactured by him which he has not sold at any time since January 1, 1945, for which cigar he did not establish a maximum retail price by filing the report required by former § 1358.102 (e) of this regulation, in effect during that period.

(iii) *Manufacturers who during the first half of 1943 sold new domestic cigars but who during such period did not sell any March, 1942, brands.* Any manufacturer of domestic cigars, to whom apply the conditions set forth in subdivisions (a) through (f) below, must establish his average retail price ceiling, or amend his average retail price ceiling previously established pursuant to this paragraph (c), by filing in duplicate, on or before December 1, 1945, with the Office of Price Administration, Washington, D. C., OPA Form 635-2077 (or a copy of that form) completed in accordance with the instructions set forth in footnote 2 to subdivision (ii) above.

(a) He was in business for 30 or more consecutive days during the period from January 1 through June 30, 1943; and

(b) He did not sell during that period any cigar manufactured by him which he also sold during March, 1942, and

(c) He sold during that period one or more new domestic cigars manufactured by him; and

(d) A maximum retail price has been established by order of the Price Administrator, pursuant to paragraph (b) of this section, for each new domestic cigar manufactured by him which he sold both during that period and at any time since January 1, 1945; and

(e) He established, by filing the report required by former § 1358.102 (e) of this regulation, a maximum price for each new cigar manufactured by him which he sold during that period but has not sold at any time since January 1, 1945; and

(f) No average retail price ceiling has been established for him by order of the Price Administrator pursuant to subparagraph (3) of this paragraph (c) or paragraph (d) below.

(iv) *For certain other manufacturers (including all who commenced business after June 1, 1943).* A manufacturer who is neither establishing (or amending) his average retail price ceiling pursuant to any of subdivisions (i), (ii), or (iii) above, and for whom no average retail price ceiling has been established by order of the Price Administrator pursuant to subparagraph (3) below, shall establish his average retail price ceiling, or amend his average retail price ceiling previously established pursuant to this paragraph (c), as provided in subdivisions (a) and (b) below.

However, any manufacturer who, prior to this amendment, established his average retail price ceiling by reference to Appendix G as contained in Amendment 10 to this regulation, may continue to use his average retail price ceiling so established until January 1, 1946.

(a) *Definitions of Class I and II manufacturers.* A manufacturer of cigars is a Class I manufacturer if fifty percent or more of the domestic cigars which he produces annually are both

bunched and rolled by automatic machine. Any other cigar manufacturer is a Class II manufacturer.

(b) *For new Class I manufacturers.* If he is a Class I manufacturer (defined in subdivision (a) above), he shall make a written application in duplicate to the Office of Price Administration, Tobacco Section, Washington, D. C., on or before December 1, 1945, or ten days prior to the date of his first sale of domestic cigars manufactured by him, whichever is later. Such application shall show the location of each of his factories, the date on which he commenced (or intends to commence) operations, the total number of domestic cigars (if any) manufactured by him in the year preceding the date of his application and the total number of such cigars which were both bunched and rolled by automatic machine. On receipt of such application, the Price Administrator will, by order or amendment, establish, or provide a method for establishing, the average retail price ceiling for such manufacturer.

(c) *For new Class II manufacturers.* If he is a Class II manufacturer (defined in subdivision (a) above) and manufactures domestic cigars in one cigar factory, or in two or more cigar factories all located within a single Internal Revenue Collection District, his average retail price ceiling shall be the amount listed in Appendix G for that Internal Revenue Collection District. If he is a Class II manufacturer and manufactures domestic cigars in two or more cigar factories located in two or more Internal Revenue Collection Districts, his average retail ceiling price shall be the smallest of the amounts listed in Appendix G for those Internal Revenue Collection Districts. A manufacturer establishing his average retail price ceiling under this subdivision shall make a written report in duplicate, showing the location of each of his factories, the date on which he commenced (or intends to commence) operations, the total number of domestic cigars (if any) produced in the year preceding the date of his application, the number of these which were both bunched and rolled by automatic machine, and the amount of his average price ceiling determined pursuant to this subparagraph. He shall file this report in duplicate with the Office of Price Administration, Tobacco Section, Washington, D. C., on or before December 1, 1945, or ten days prior to the date of his first sale of domestic cigars manufactured by him, whichever is later.

(3) *Adjustments of average retail price ceilings.* A manufacturer who is unable to maintain his average retail price ceiling determined under subparagraph (2) above or subparagraph (5) below and earn a net operating profit (before taxes on income) of 4.5 percent of his dollar net sales (Dollar net sales, for the purpose of this amendment, must be interpreted as meaning sales of all cigars sold during the period at manufacturers' list price, less discounts allowed and returns and allowances. Such sales shall not include transfers to distribution centers, but shall include sales made from those distribution centers.) may apply to the Price Administrator for an adjustment

of his average retail price ceiling. Such application shall be filed in duplicate with the Office of Price Administration, Tobacco Section, Washington, D. C., and shall be signed by the manufacturer or his authorized agent. It shall contain:

(i) Applicant's name and address, and the name and title of the person signing the application.

(ii) A statement setting forth separately as to intended use (filler, binder or wrapper) the weight and kind of weight of each grade of each type number of tobacco held in inventory on January 2, 1945, by the applicant.

(iii) Applicant's operating and profit and loss statements (prepared according to his usual system of accounting) for the period from January 1 through June 30, 1945.

(iv) Applicant's statement of cigars sold during the above accounting period, setting forth (a) the total number of cigars sold by retail sales price, separated between domestic tax paid and tax free cigars, and (b) rates of discounts allowed on each price group.

(v) The brand name, front mark or size, length and ring gauge of each domestic cigar manufactured by applicant during the period from January through June 30, 1945, showing the percentage of each grade of each type number of tobacco used as filler, binder and wrapper in making each such cigar, and the total number and method of manufacture of cigars of each brand name and front mark or size produced during the period from January 1 through June 30, 1945.

(vi) Applicant's average retail price ceiling and the date on which he established or last amended that average retail price ceiling pursuant to subparagraph (2) above, or the date of the order issued by the Price Administrator pursuant to paragraph (d) below, establishing such average retail price ceiling.

After receipt of the application, and if any further information or evidence considered necessary and requested for purposes of determining the propriety of an adjustment, the Price Administrator will, by order, grant or deny, in whole or in part, the adjustment requested. Any adjustment granted may be limited as to time. An order granting or denying an adjustment may be revoked or modified by the Price Administrator at any time. Adjustments granted under this subparagraph shall be limited to an amount found by the Price Administrator to be the price reflected on the average in the industry for cigars made by the applicant from tobacco of the grade and type contained in the applicant's January 2, 1945 inventory. However, no adjustment shall be granted under this subparagraph in an amount which exceeds that found by the Price Administrator to be reasonably necessary to allow the applicant profits, before income and excess profits taxes, on his domestic cigar manufacturing operations, equal to 4.5 percent of his dollar sales.

(4) *Quarterly reports of sales of domestic cigars.* On or before April 15, 1945, and on or before the 15th day of each third month thereafter, every manufacturer of domestic cigars shall file in

duplicate with the Office of Price Administration, Tobacco Section, Washington, D. C., a complete and accurate report on OPA Form 635-2076 shown in Appendix F (or on copies of that form), showing the weighted average retail price of all domestic cigars manufactured by him which he sold (tax-paid) during the preceding quarter. For this purpose, his "sales" during any prescribed quarter shall have the meaning given to that term in subparagraph (c) (1) above.

(5) *Increase in average retail price ceilings for manufacturers using Cuban tobacco.* A manufacturer who has established or amended his average retail price ceiling pursuant to paragraph (c) (2) above, or whose average retail price ceiling has been established by order of the Price Administrator pursuant to paragraph (d) below, and who uses Cuban tobacco in the manufacture of domestic cigars during any quarter, may submit a separate written report showing the stemmed weight of Cuban tobacco and the stemmed weight of all tobacco (including Cuban tobacco) used by him in the manufacture of domestic cigars during that quarter. This report shall be submitted in duplicate together with his report on OPA Form 635-2076 for that quarter, except that any such report for the second quarter of 1945 may be submitted after submission of his report on OPA Form 635-2076 for the second quarter of 1945 but no later than October 15, 1945. Thereupon his average retail price ceiling for the quarter immediately following the quarter for which such report is made shall be increased by an amount computed as follows:

(i) The stemmed weight of Cuban tobacco so reported shall be divided by the stemmed weight of all tobacco so reported.

(ii) The resulting decimal factor shall be multiplied by .18.

(iii) His maximum average price ceiling shall be multiplied by the second resulting decimal factor.

However, average retail price ceilings established pursuant to paragraph (c) (3) above, which has not been amended pursuant to paragraph (c) (2), above, may not be increased pursuant to this subparagraph (5).

(6) *Surcharges and credits*—(i) *How to compute surcharges or credits.* If a manufacturer's weighted average retail price for any prescribed quarter, three calendar months' period, as reported on OPA Form 635-2076, exceeds his average retail price ceiling for that quarter, he had incurred a "surcharge"; if it is less than his average retail price ceiling, he has earned a "credit." The amount of the surcharge or credit is computed by first finding the difference between the manufacturer's weighted average retail price for the quarter and his average retail price ceiling, and then multiplying that difference by the number of domestic cigars manufactured by him which he sold (tax paid) during that quarter.

(ii) *When a net surcharge or net credit must be computed.* At the end of each quarter a manufacturer must determine whether he has incurred a net "surcharge." A net surcharge is the amount

by which a surcharge incurred by a manufacturer in any quarter exceeds any net credit earned by him in the immediately preceding quarter. A net credit is the amount by which a credit earned by a manufacturer in any quarter exceeds any net surcharge incurred by him in the immediately preceding quarter.

(iii) *Tolerances.* Each manufacturer has an "allowable tolerance" for any given quarter, which amounts to 5% of the dollar amount which results from multiplying his average retail price ceiling for that quarter by the number of domestic cigars manufactured by him which he sold tax paid during that quarter.

(iv) *When net surcharge is regarded as a violation.* A manufacturer who incurs during any quarter a net surcharge in a dollar amount which is larger than his allowable tolerance for that quarter shall be deemed to have violated this regulation and shall be subject to the criminal penalties, enforcement actions, license suspension suits and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(v) *Redemption of excessive surcharge.* A manufacturer who incurs during any quarter a net surcharge in a dollar amount which is equal to or smaller than his allowable tolerance for that quarter may discharge that net surcharge during the immediately following quarter, by earning in such following quarter a credit equal to or greater in dollar amount than such net surcharge. To the extent that such manufacturer fails to discharge such net surcharge during the immediately following quarter, he shall be deemed to have violated this regulation and shall be subject to the criminal penalties, enforcement actions, license suspension suits, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

Former sec. 5 added by Am. 2, 8 F.R. 12952, effective 9-24-43; corrected 8 F.R. 14154, effective 10-1-43; amended by Am. 8, 9 F.R. 7853, 8188, effective 7-17-44; Am. 9, 9 F.R. 10264, effective 8-28-44; Am. 13, 10 F.R. 5045, effective 5-9-45; and deleted by Am. 17, effective 9-18-45]

Sec. 6. Maximum prices for sales by growers to processors on a "cooperative basis". The maximum prices named above in sections 3, 4 and 5 do not apply to sales by growers to processors on a "cooperative basis".

In such cases, the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the processor received under the last "cooperative sales contract" which the grower and processor entered into prior to April 28, 1942, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under that contract.

In cases where no such contract was entered into by the grower and processor prior to that date, the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the processor received under the last "cooperative sales contract" which the processor entered into prior to April 28, 1942, with any grower, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under the contract.

In cases where no such contract was entered into by the processor prior to April 28, 1942, with any grower, the

grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) that proportion of the sale price which the nearest processor, who bought that kind of fresh product from growers on a "cooperative basis" before April 28, 1942, received under the last "cooperative sales contract" which he entered into prior to that date, with any grower, and (2) the costs of labor, processing, selling, financing, handling, supplies or taxes, as specified under that contract.

In all other cases the grower's maximum price for the fresh product shall be the processor's lawful sale price for the processed food product less (1) 7% and (2) the costs of labor, processing, selling, financing, handling, supplies and taxes.

[Above paragraph added by Am. 15, 10 F.R. 8373, effective 7-4-45]

However, in no event shall the grower's maximum price be less than the maximum price otherwise applicable under sections 3, 4 and 5.

"Cooperative basis" means pursuant to a "cooperative sales contract."

"Cooperative sales contract" means a contract of purchase and sale of fresh fruits, berries and vegetables under which the processor agrees to return to the seller all receipts from the sale of the processed food product after the deduction of (1) the cost of labor, processing, selling, financing, handling, supplies or taxes, as specified under the contract, and (2) a dollars-and-cents or percentage figure named in the contract, as compensation to the processor.

[Sec. 6, formerly 6a, added by Am. 11, 9 F.R. 13857, effective 7-5-43, except that as to cooperative sales contracts made on or after November 20, 1944, it shall become effective November 20, 1944; and redesignated by Am. 17, effective 9-18-45]

ARTICLE III—GENERAL PROVISIONS

Sec. 7. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization shall be given by order.

[NOTE: Procedural Regulation No. 6 (9 F.R. 10528; 10 F.R. 1362, 9394) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175, 10 F.R. 9394) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications and cer-

tain specific regulations listed in Revised Supplementary Order No. 9.]

[NOTE: Supplementary Order 108 (10 F.R. 2015) permits, under certain conditions, the addition of extra packing expenses to maximum prices on sales to procurement agencies of the United States.]

Sec. 8. Records. A person, other than a producer, who sells or delivers any fresh fruit, berry or vegetable to a processor, or a processor who buys or receives any such commodity, shall keep for examination by the Office of Price Administration, so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, records showing in each case the date of sale, the quantity and grade sold, the price charged, and the name and address of the purchaser or seller, as the case may be. Records shall be available for examination by the Office of Price Administration at any reasonable time.

Sec. 9. Compliance with the regulation—(a) No buying or selling above maximum prices. After this regulation is effective, regardless of any contract, agreement or other obligation, no person shall sell or deliver any fresh fruit, berry or vegetable to any processor, and no processor shall buy or receive the commodity, at prices higher than the maximum prices established for it under this regulation; and no person shall agree, offer, solicit or attempt to do any of these things. However, prices lower than the maximum prices may be charged and paid.

(b) *Evaston.* The maximum prices established under this regulation shall not be evaded by direct or indirect methods, whether by commission, service, transportation or other charge or discount, premium or other privilege; by tying-agreement or other trade understanding; by business practices relating to grading or packing, or in any other way.

(c) *Enforcement.* Any person violating the provisions of this regulation is subject to the criminal penalties, civil enforcement actions and suits for treble damages as provided in the Emergency Price Control Act of 1942, as amended.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (d), formerly sec. 8a added by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43 and redesignated by Am. 17, effective 9-18-45]

Sec. 10. Petitions for amendment. Persons seeking modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.⁵

(2) For reductions in package contents: Any manufacturer of an item of packaged tobacco for which a new maximum net selling price has been established under paragraph (a) (1) who desires to reduce the quantity of package contents of that item in order to maintain the old net selling price and shall determine the weight of the new package by the following calculations:

(i) Divide the sum of his old maximum net selling price per dozen packages of the item and the adjustment allowed in Table A for that item by the weight in ounces of the package before reduction.

(ii) Divide his old maximum net selling price per dozen packages by the result obtained at (i). The result is the minimum weight in ounces allowable for the new package contents before rounding off as allowed by (iii).

(iii) If the new weight, as determined above, does not equal a weight ending in an eighth of an ounce the contents of the new package may be lowered to the next lower eighth of an ounce, if such to the weight determined at (ii) above, than is the next higher eighth of an ounce.

Example: Manufacturer desires to maintain old maximum net selling price of \$4.2336 per dozen on a three-fourths of an ounce package, so his old net selling price and old retail prices can remain unchanged.

Step (1). To manufacturer's old maximum net selling price, before allowed adjustments, (\$4.2336 cents); add adjustment allowed from Table A, (six cents), total; \$4.8936 cents. Divide \$4.8936 cents by .75 (number of ounces in present package). Result \$6.4448 cents per dozen ounces.

Step (2). Divide manufacturer's old maximum net selling price (\$4.2336) by \$6.4448 (result of step 1). The result equals .6569 ounces per package (minimum contents allowable for new package before step (3)).

Step (3). The weight computed is between even eighths of an ounce; therefore the

PART 1499—COMMODITIES AND SERVICES
[SR 14D, Amdt. 6]
PACKAGED TOBACCO

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register. Supplementary Regulation 14D to the General Maximum Price Regulation is amended in the following respects:

1. Section 6 is added to read as follows:

Sec. 6. *Packaged tobacco*—(a) *Adjustment of manufacturers' maximum prices; notice to purchasers*—(1) *For some packages contents*. (i) The new maximum net selling price of any manufacturer for a dozen packages of a particular item of packaged tobacco shall be his old maximum net selling price per dozen packages plus the applicable increase provided in Table A below.

* 10 F.R. 1180, 5103, 7355, 7932, 8743.

[Sec. 10, formerly 13, redesignated by Am. 17, effective 9-18-45. Former sec. 10 deleted by Am. 17]

[NOTE: Supplementary Order No. 28 (7 F.R. 9619, 8 F.R. 7266) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

Sec. 11. *Position of brokers and "finders."* Maximum prices named in this regulation include brokerage, commission charges and all selling and buying expenses. In each case, the amount paid by the processor to the broker plus the amount paid by the processor to the seller shall not exceed the seller's maximum price, plus allowable transportation actually paid by the seller or by the broker. The term "broker" includes a "finder."

[Sec. 11, formerly 14, added by Am. 3, 8 F.R. 15874, effective 11-22-43 and redesignated by Am. 17, effective 9-18-45. Former sec. 11 deleted by Am. 17]

Sec. 12. *Adjustments by Regional or District Offices.* The following authority is hereby delegated to each Regional Administrator which he may in turn redelegate to any of the District directors within his region:

(a) To determine, for any area within his jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to employ brokers or other agents to secure raw materials for processing. If such a custom is found to exist, the authorized officer shall issue an appropriate order permitting processors in that region or district to pay such an agent his usual commissions or fees in addition to paying the maximum price as established under the regulation to the supplier.

Any such order shall modify section 11 of this regulation to the extent necessary to effectuate the purposes of the order.

(b) To determine, for any area within its jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to receive the raw material at points where they do not maintain their own facilities for grading, weighing, repacking and loading onto their conveyances. If such a custom is found to exist, the authorized officer shall issue an appropriate order to

weight of the package shall be not less than five-eighths ounces, the next lower eighth of an ounce and nearer to .6569 ounces than is .75 ounces, the next higher eighth of an ounce.

Before making a reduction in package contents, the manufacturer shall apply by letter to the Tobacco Section of the Office of Price Administration, Washington, D. C. The letter shall state:

(i) The reduction the manufacturer desires to make in the quantity of package contents.

(ii) His old maximum net selling price per dozen, his old list price and customary discounts and allowances on the item.

(iii) Computations in accordance with this subparagraph.

If the Office of Price Administration makes no objection to the proposed change, in package contents within fifteen days of its receipt of such letter the manufacturer may reduce the package contents as his letter proposed. A manufacturer may not take the increase in his net selling price allowed by paragraph (a) (1) and later reduce the package contents of the item.

(3) *Notification to purchasers.* On or before his first delivery of an item of packaged tobacco the maximum net selling price or contents of which has been adjusted in accordance with subparagraphs (1) or (2) of this paragraph, the manufacturer shall give each purchaser the applicable written notice attached to or stated on the invoice covering such first delivery:

(Insert date)

The Office of Price Administration has authorized an increase in our maximum net selling price for our ----- (describe item by brand and container type and size) of ----- cents per dozen. Wholesalers and jobbers are authorized to increase their net selling prices for this item by ----- cents per dozen. Retailers may add ----- cents per item to their March 1942 prices legally in effect. The Office of Price Administration requires that you keep this notice for examination.

(Insert date)

The Office of Price Administration has authorized us to reduce the quantity of package contents of our ----- (describe item by brand and container type) from ----- ozs. to ----- ozs. The permission given us does not allow you an increase in your maximum prices for this brand nor is any increase in the maximum retail price for this item authorized. The Office of Price Administration requires you to keep this notice for examination.

(b) *Wholesalers' maximum prices; notice to purchasers.* (1) Upon receipt of notification pursuant to paragraph (a) (3) above, of an adjustment of his supplier's maximum net selling price allowed by paragraph (a) (1), above, for an item of packaged tobacco, a wholesaler's maximum net selling price is increased by the amount of the net increase in the price of his supplier. Such adjustment shall be applicable to floor stocks. Where any manufacturer has not adjusted his maximum net selling price pursuant to paragraph (a) (1) above, with respect to any item of packaged tobacco, no increase may be charged by the wholesaler with respect to that item.

If the increase in the supplier's maximum net selling price results in an increase ending in a fraction of a cent per dozen to the wholesaler or jobber, the wholesaler or jobber may round off his new maximum price per dozen to the next higher full cent.

(2) After receipt of notice from his supplier, any wholesaler may sell, and any person may buy from that wholesaler, an item of packaged tobacco, the quantity contents of which have been reduced pursuant to paragraph (a) (2) above, at the same maximum price which he had legally in effect before the package contents were reduced.

(3) On or before his first delivery of an item of packaged tobacco the quantity contents of which have been reduced pursuant to paragraph (a) (2), above, the wholesaler shall give the purchaser the following written notice:

The Office of Price Administration has authorized the manufacturer of ----- (Identify item by brand and container type) to reduce the quantity of this item's contents from ----- ozs. to ----- ozs. Wholesalers, jobbers and retailers are authorized to sell this item with its reduced weight without changing their ceiling prices for this item. The Office of Price Administration requires you to keep this notice for examination.

(4) On or before his first delivery of an item of packaged tobacco the maximum net selling price of which has been increased as allowed by paragraph (a) (1), above, the wholesaler shall give the purchaser the following written notice:

(Insert date)

The Office of Price Administration has authorized a price increase of ----- cents in the manufacturer's net selling price per dozen of ----- (Identify item by brand and container type and size) and an increase in the retail price of ----- cents per item. Wholesalers and jobbers are authorized to add the amount of the manufacturer's increase to their maximum net selling prices. Retailers are allowed to add the amount of the increase in the retail price to their maximum prices established under the General Maximum Price Regulation. Fractions of a cent to be added to a maximum retail price are to be rounded off as prescribed in the regulation.¹ Retailers must maintain their customary price differentials allowed by them during March 1942 below the manufacturer's stated retail price, if any. The Office of Price Administration requires that you keep this notice for examination.

(c) *Retailers' maximum prices.* (1) Upon receipt of notification pursuant to paragraph (b) (4) above, from the wholesaler or jobber of an adjustment of the manufacturer's net selling price for an item of packaged tobacco pursuant to paragraph (a) (1), above, a retailer is authorized to add the amount of the increase per item to his March 1942 prices established under the General Maximum Price Regulation to determine his new maximum price, in accordance with such notification. Such adjustment shall be applicable to floor stocks. Where the addition of the allowed price increase results in a price containing a fraction less than $\frac{1}{2}$ cent the maximum retail price

¹ This sentence should be omitted if the authorized increase in the retail price contains no fraction of a cent.

shall be increased to the $\frac{1}{2}$ cent, and if the fraction is more than $\frac{1}{2}$ cent, the maximum retail price shall be increased to the next higher full cent. If such price contains the fraction $\frac{1}{2}$ cent, the purchaser shall be given the option of buying two of the items of packaged tobacco at a multiple unit price, or one item at a maximum price rounded to the next higher full cent; if the retailer refuses to sell more than one item to a purchaser, his maximum price shall be rounded to the next lower full cent. Retailers must maintain their customary price differentials allowed by them during March 1942 below the manufacturer's stated retail price.

(2) After receipt of notice from his supplier pursuant to paragraph (b) (3) above, any retailer may sell, and any person may buy from that retailer, packaged tobacco of which the weight of contents has been reduced in accordance with paragraph (a) (2), above, at the retailer's March 1942 maximum price as established under the General Maximum Price Regulation.

(d) *Maintenance of customary discounts and allowances.* A seller's customary discounts and allowances shall not be less than those given by him in March 1942 on his sales of packaged tobacco. Every retailer shall maintain his customary price differentials, if any, allowed in March 1942 below the manufacturer's stated retail price.

(e) *State and local taxes.* Maximum prices established by this section are exclusive of any increases in State and local taxes upon tobacco products which have been added since the General Maximum Price Regulation went into effect or which may be added, or are caused by the increases in maximum prices allowed by this section. Sellers may add to these prices the amount of such tax applicable to the item being priced and paid or payable by them to the taxing authorities or to a prior vendor.

(f) *Units of sale.* Maximum prices shall be stated in terms of the same general units (like dozens, packages, etc.), in which the seller has customarily quoted prices for the product.

(g) *Geographical applicability.* Provisions of this section shall be applicable to the forty-eight States of the United States and to the District of Columbia.

(h) *Definitions.* When used in this section, the term:

"Packaged tobacco" means manufactured tobacco in which the product consists of granulated tobacco, crushed plug, various plug cuts, crimp cut, sliced cut, long cuts (tobacco cut into shreds or strings), all so-called mixtures, fine cut, cigarette tobacco and tobacco scraps, cuttings or clippings, prepared or suitable for smoking or chewing purposes. "Packaged tobacco" does not mean snuff or any item of manufactured tobacco the price of which has been increased under Section 2, 4 or 5 of this Supplementary Regulation.

"List price" means the manufacturer's gross price before discounts and allowances.

"Net selling price" means the manufacturer's or other seller's net price after deduction of discounts and allowances.

"Item" means a particular brand (if any), container type and size of packaged tobacco.

"Old maximum net selling price" means a net selling price determined as a seller's maximum price under the General Maximum Price Regulation.

"New maximum net selling price" means a seller's old maximum net selling price plus the applicable increase allowed in Table A herein.

2. In section 5 the word "chewing" is deleted wherever it appears in the term "plug chewing tobacco."

3. Subparagraph (1) of section 5 (g) is amended to read as follows:

(1) "Plug tobacco" means manufactured plug tobacco prepared from tobacco leaves pressed into flat cakes, flavored, sweetened, and intended for both smoking and chewing purposes, as defined in Regulation No. 8 relating to taxes on tobacco products, issued by the Bureau of Internal Revenue, U. S. Treasury Department.

NOTE: All reporting and record keeping requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Effective this 18th day of September 1945.

Issued this 13th day of September 1945.

IMPORTED FRESH BANANAS IN NEW YORK REGION

For the reasons stated in the accompanying opinion, this order is issued.

SECTION 1. *What this order does.* This order adjusts upward the maximum prices for "processors" sales of bananas:

(2) In paragraph (c), the provision numbered (iii) is amended to read as follows:

(iii) A statement declaring that the applicant did not segregate any higher cost anthracite (except as specifically permitted above) during the previous calendar month and avail himself of the automatic increases under paragraph (b) hereof (but applications filed on or before September 10, 1945 need not contain this statement), with a separate statement as to any higher cost anthracites which were properly separately handled.

(3) In paragraph (c), a new paragraph is added at the end of said paragraph (c) to read as follows:

A dealer who has once applied for and obtained a price under the provisions of this paragraph (c) shall not thereafter sell anthracite under the provisions of paragraph (b) hereof, without first applying to and obtaining permission to do so from said Boston Regional Office; in such instance said Regional Office may determine a price for said dealers' sales of anthracite for a one month period as a condition to permitting said dealer to exercise his option to sell anthracite thereafter under said paragraph (b).

(4) In Appendix A, the permitted net ton increase for "Delano" is amended to read as follows:

	Broken	Egg	Stove	Nut	Pea	Buckwheat	Rice	Barley

(6) In Appendix A, a provision for a new named coal, "Cranberry" is added to read as follows:

	Broken	Egg	Stove	Nut	Pea	Buckwheat	Rice	Barley
(3) "Cranberry".....	\$0.25	\$0.25	\$0.25	\$0.25	\$0.25	\$0.25	\$0.25

("Cranberry" includes anthracite produced and prepared by Cranberry Improvement Company at its Cranberry Colliery located at Hazelton, Pennsylvania.)

Provided, That the bananas have been (a) transported by rail from a United States port of entry, unloaded from a rail car at a rail terminal located in Philadelphia, Pennsylvania, loaded onto a motor vehicle and transported to the processor's warehouse or ripening room, and (b) "processed." No adjustment is provided for bananas which do not meet all of these conditions.

SEC. 2. *Where this order applies.* This order applies to all "processors" of bananas whose warehouses or ripening rooms are located in Philadelphia, Pennsylvania.

SEC. 3. *Adjustment.* The maximum price for sales by "processors" of bananas shall, if sections 1 and 2 above have been satisfied, be increased by 12¢ per cwt.

In no case shall charges be made for time in excess of that shown in the seller's pay-roll records or in the records which the seller is required to prepare for this order.

Duplicates of such invoices or such sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(3) Every seller subject to this order shall preserve, and make available for examination by the Office of Price Administration, all records showing the basis upon which he determined his maximum customer's hourly rates.
